THE WAREHOUSE BEER SAMPLER

Having a tough time choosing a beer? Why not try a sampler. Select any four beers, and have some of each. Our resident beer aficionados suggest you try the blondest beer first, then work your way through to the darker beers.

Did you know? The grain in darker beer is more heavily toasted or “malted.” While blondes may have more fun, redheads and brunettes are always more full-bodied and complex.

Try one of each. We're sure you'll find one to write home to Mom about.
